Care of mildly ill children: Issues and national policy directions in child care [1]

Author: Polyzoi, Eleoussa & Mayer, Debra
Source: University of Winnipeg and the Manitoba Child Care Association
Format: Report
Publication Date: 31 Jul 2001
Excerpt from executive summary: This report describes the results of a project, conducted over three years, which examines the challenges that working parents face when their children are too ill for licensed child care. It examines parent preferences for different models of care, and compares and contrasts these preferences with those of child-care providers.
Region: Canada [2]
