Overview

This is the eighth edition of Society at a Glance, the biennial OECD overview of social indicators. This report addresses the growing demand for quantitative evidence on social well-being and its trends. It updates some indicators included in the previous editions published since 2001 and introduces several new ones, with 25 indicators in total. It includes data for the 35 OECD member countries and where available data for key partners (Brazil, China, India, Indonesia, Russia and South Africa); other G20 countries (Argentina and Saudi Arabia) are also included. The report features a special chapter on the NEET challenge and what can be done for jobless and disengaged youth. It also provides a guide to help readers in understanding the structure of OECD social indicators. All indicators are available as a web book and an e-book on OECD iLibrary.

Child care is highlighted throughout the report. Authors note that a lack of affordable child care keeps young women out of workforce in many countries.
