Introduction

The Maternity and paternity at work: Law and practice across the world report reviews national legislative provisions on maternity protection at work in 185 countries and territories (including leave, benefits, employment protection, health protection, breastfeeding arrangements at work and childcare), statistical coverage in law and in practice of paid maternity leave as well as statutory provision of paternity, parental and adoption leaves. It shows how well national laws and practice conform to the ILO Maternity Protection Convention, 2000 (No. 183), its accompanying Recommendation (No. 191) and the Workers with Family Responsibilities Convention, 1981 (No. 156). The report is based on the ILO Working Conditions Laws Database – Maternity Protection and an ILO statistical methodology to estimate coverage in law and in practice.
