OVERVIEW

The review covers Maternity, Paternity and Parental leaves; leave to care for sick children and other employment-related measures to support working parents; and early childhood education and care policy. As well as policies, it provides information on publications and research. The review also includes definitions of the main types of leave policies; and cross-country comparisons. These comparative overviews cover: each main type of leave; total leave available; the relationship between leave and ECEC entitlements; policy changes and developments since the previous review.
