Excerpts from news release:

In February 2001, the Manitoba government released the Child Day Care Regulatory Review Committee's "A Vision for Child Care and Development in Manitoba" for public consultation. Over 24,000 Manitobans responded, with most expressing support for the vision of an affordable, accessible, high quality, universal child care system. In response to that vision document, the province has announced this new five-year plan for child care.
