How to Organize for Child Care in an Election

The 2019 federal election campaign is underway. This toolkit gives you everything you need to engage your community and candidates on the issue of child care.

A diverse group of national, provincial/territorial and local groups have created the Affordable Child Care for All Plan, which sets out what the federal government can do to build the child care system Canada needs.

The 2019 federal election is a great opportunity to win the political support of Canada's next Parliament for this plan.

How to Use this Toolkit

Read through the various ways you can engage candidates and your community and choose the methods that work best for you.

Whether you engage your community by going door-to-door or hand out information at a farmer's market or meet with candidates about child care, you will have an impact on both the voters and the candidates.
