Conference goals & objectives:

- Share promising and/or emerging practices and innovative approaches from across Canada that respond to early learning and child care workforce issues and challenges
- Provide tools and resources for attraction, onboarding, retention, and professional development, to improve staff qualifications and service quality
- Foster networks to address early learning and childcare workforce development and seek opportunities for new and expanded partnerships and activities

Who we are:

The Learning Enrichment Foundation and Mothercraft College of Early Childhood Education came together to develop an upgrading program for ECAs and child care practitioners to gain their ECE diploma while continuing to work. This program has been designed to build the skills needed to provide high quality care, while also filling the labour market needs of employers and reducing barriers for those currently working in the Early Learning and Child Care sector to obtain their ECE diploma. A valuable component of the project is connecting and engaging with stakeholders in other provinces to improve the sector workforce. This conference is the vehicle to bring motivated and passionate players in the sector together to share and advance strategies and approaches.

Who will benefit from attending:

- Training Providers: Colleges and Universities
- Child Care and Early Years Employers and Staff
- Child Care Networks and Associations
- Other key sector partners: academics, funders, government, etc.
