Excerpted from introduction

The International Network on Leave Policies and Research has been producing an annual review of leave policies and related research since 2005 (for earlier reviews, go to the network's website www.leavenetwork.org ^[4]). The review covers Maternity, Paternity and Parental leaves; leave to care for sick children and other employment-related measures to support working parents; and early childhood education and care policy.

The review is based on country notes from each participating country, prepared by members of the network and edited by several of the network's coordinators. Each country note follows a standard format: details of different types of leave; the relationship between leave policy and early childhood education and care policy; recent policy developments; information on take-up of leave. The review also includes definitions of the main types of leave policies; and cross-country comparisons. These comparative overviews cover: each main type of leave; the relationship between leave and ECEC entitlements; and policy changes and developments since the previous review. We also include a technical appendix.

In light of recent events, we have an exceptional section contained within country notes on leave policy response to the pandemic. There is also a cross-national comparative summary of leave policy response to COVID-19, which aims to present a brief overview of the forms of response seen across Leave Network member countries.

The 2020 review covers 45 countries. These are: Australia, Austria, Belgium, Bulgaria, Brazil, Canada, Chile, China, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Israel, Ireland, Italy, Japan, Korea, Latvia, Lithuania, Luxembourg, Malta, Mexico, Netherlands, New Zealand, Norway, Poland, Portugal, Romania, Russian Federation, Slovak Republic, Slovenia, South Africa, Spain, Sweden, Switzerland, United Kingdom, United States of America, and Uruguay. The content of the review is to the best of our knowledge correct at the time of going to press, but mistakes may occur. If you should have a query or find an error, we would be grateful if you would contact the country note authors as relevant and the editors. We recommend that readers consult the most recent version of the review where possible, as we are unable to retrospectively rectify errors. The review is available online either as one complete document; or, for ease of downloading, divided into its constituent parts.
