Selected highlights:

CANADA

- * Overview: High-income families make gains, while incomes remain stable for rest
- * Total income: Top tenth of families accounted for more than a quarter of all income
- * Government transfers: Share in income declines for working-age families
- * Low income: Proportion of seniors in low income now below the proportion of children
- * Couple and lone-parent families: Gains for nuclear families with young children

PROVINCES AND TERRITORIES

- Biggest gains in median income in Alberta and Saskatchewan
- Family income most unequally distributed in Nunavut
- Share of income that comes from government sources down in most provinces and territories

SUB-PROVINCIAL

- Median family income highest in Ottawa-Hull, Oshawa
- Family income most unequally distributed in Toronto and Vancouver
- Government transfer share of family income highest in St. John's
