Excerpted from introduction

As we distribute vaccines across Canada, bold action continues to be necessary to fight COVID-19, save lives, support people and businesses throughout the remainder of this crisis, and build back better. When COVID-19 is under control and Canada's economy is ready for growth, the government has a plan to make smart, targeted investments that jumpstart the country's economic recovery and begin to repair the damage done by the pandemic.

These pre-budget consultations are an opportunity for Canadians from across the country to share their ideas and priorities for how the government can make investments to grow the economy. We want to hear your very best ideas on how to create new jobs and build a greener, more competitive, more innovative, more inclusive, more resilient Canada.

Join the conversation by taking our questionnaire, or uploading a submission.
