Region: Canada ^[3]

Details

For Youth Initiative and Early Childhood Development Initiative invites you to join them for a discussion on advocacy and support for Black children and youth. FYI works with youth aged 13-25 who identify as Black and ECDI works with newcomer West African families with children aged 6-12. This workshop will provide space for us to have a dialogue and learn about ways to strengthen parental and youth capacity to ensure optimal success in the education system.
