ONTARIO COALITION FOR
Better Child Care

Association of Early Childhood Educators Ontario

Across Ontario, the child care workforce crisis is causing programs to limit their hours, close rooms and close programs. Educators are increasingly burnt out. We need government action to address this pressing crisis. Join the Association of Early Childhood Educators Ontario and the Ontario Coalition for Better Child Care on December 15th at 2pm for a roundtable discussion on the child care workforce crisis in Ontario. We have invited Ministry of Education officials and municipal leaders to listen to voices from the community. Come and take part in a discussion of current challenges and the changes that we need to support retention and recruitment in the child care sector.

This event is being held during the day in order to facilitate the participation of public officials.
