## EXCERPTS

Premier Ford and Ontario political parties,

We are parents, Early Childhood Educators, child care workers, public health leaders, and concerned Ontarians.

We are calling on you to take immediate and concrete action to support the safety and viability of licensed child care programs in Ontario. Hundreds of thousands of Ontario families depend on the licensed child care system every day, but right now that system is in crisis. We need a provincial plan to make our young children's care as safe as possible and to prevent the collapse of the child care sector.

To keep children and families safe, the Ontario government must:

- Reinstatement eligibility for publicly-funded PCR tests to include children, families, Early Childhood Educators, child care providers and staff;
- Recommence COVID-19 case reporting in the child care sector;
- Increase financial support to licensed child care programs to ensure recruitment and retention of qualified staff;
- Provide 10 permanent paid sick days to support child care workers and families with mandatory isolation periods; and
- Take responsibility for the health and safety of families and workers by clearly guiding operators facing cohort dismissals due to positive COVID-19 test results in their programs.

While it has been encouraging to see recent announcements promising Rapid Antigen Tests, N95 masks and HEPA filters to child care programs, the provincial government needs to ensure that there is adequate and ongoing supply. Child care programs need:

- Enough Rapid Antigen Tests (RATs) for all children, families, ECEs, child care providers and staff in their child care programs
- Adequate and ongoing supplies of high quality N95 masks, other necessary PPE; and
- Enough HEPA filters to ensure one per classroom and common area in each of Ontario's 5000+ child care programs.

In addition to these immediate actions to address pressing health and safety concerns, Ontario must ensure the long-term viability of the child care sector and affordable child care for families by:

- signing onto the federal child care plan; and
- following the child care community's Roadmap to Universal Child Care in Ontario.

The child care sector is experiencing a workforce crisis, plagued by underfunding which drives low wages and challenging working conditions. Educators deserve decent work and pay. Ontario families need affordable child care.

Safe, affordable, quality and accessible child care is vital to our province's well-being and to our social and economic recovery.

Signed,
