Prioritise gender equity

- Work with the federal government to ensure continued funding for universal access to high-quality, \$10-a-day childcare in all communities so women have more opportunity to re-enter the workforce.
- Provide Early Childcare Educators, more than 95% of whom are women, with a fair wage of at least \$25 per hour.

Ensure community consultation is inclusive

Explore innovative approaches to planning consultation that ensure processes are genuinely inclusive and meaningfully engage all citizens. For example, engaging people in community locations that they frequent such as coffee shops or transit stops, or providing childcare to ensure broader community participation.
