Excerpt

...

Below is the background research to the project as well as the 2024 edition of the quality tool and its supporting documentation (the original key indicator, risk assessment, and differential monitoring project was a collaborative effort with the National Association for Regulatory Administration (NARA)). Anyone interested in enhancing their child care program needs to take a look at these documents. This is the best example of the full implementation of differential monitoring from key indicators, risk assessment to quality indicators.
