## Details

The Children as Partners Summer Institute is a unique opportunity to learn more about children's participation as set out in the UN Convention on the Rights of the Child (CRC) and put it into practice. You will learn about the latest research and practices, share tools and experiences, discuss critical issues of children's participation with international experts, youth leaders, academics and policy-makers, and devise strategies to more fully integrate children into society as participating citizens -- as partners in society.
