Excerpts from the document:

The purpose of this document and the focus group discussion is to provide information and to seek feedback from key stakeholders about a limited set of proposed amendments to the regulation under the Day Nurseries Act (referred to throughout the rest of this document as the DNA or the Act). The objective of these changes is to provide the flexibility that will support operators as 4 and 5 year olds leave their programs and they reconfigure existing child care programs to focus on the developmental needs of children aged 0-4 years old and increase the number of child care spaces for this age group.
