

A sociological examination of the child care auspice debate^[1]

Bruce K. Friesen, edited by Gillian Doherty

14 Jan 1995

Occasional paper 6

41pp

\$10

Originally a doctoral theses, this paper presents in an abridged form, Friesen's examination of the differences in quality between for-profit and non-profit child care centres the structural features that give rise to these differences.

TABLE OF CONTENTS

Preface and Acknowledgements

Chapter I - Introduction

Children and quality child care

Responses to the demand for child care

-Government involvement in child care as a result of World War II

-Government withdrawal from child care after WW1

-The move by for-profit organizations to address the need for child care

-The development of non-profit parent co-operative programs

-The current situation

Different sectors: different characteristics

-Current types of auspices in child care

-Structural differences between non-profit and for-profit organizations

-Differences in organizational goals between non-profit and for-profit organizations

Chapter II - Research Examining the Impact of Auspices in Child Care

The requirements for quality in child care

Studies comparing different auspices using a global measure of quality

Studies comparing the number of children per caregiver across auspices

Studies comparing the level of caregiver education across auspices

Studies comparing caregiver stability across auspices

Studies comparing the interaction between the caregiver and the child across auspices

Summary

Chapter III - The Calgary Day Care Study

Contextual considerations

Purposes

Sample

Data collection

Data analysis

a) the differences in quality by auspices

b) the differences in organizational characteristics by auspices

c) the relationship between organizational characteristics and quality of care

d) auspices, organizational characteristics, and quality of care

Findings

a) the difference in quality by auspices

b) the differences in organizational characteristics by auspices

c) the relationship between organizational characteristics and quality of care

d) auspices, organizational characteristics, and quality of care

Summary

Chapter IV - A Final Appraisal

Different goals, different operational characteristics, different quality

Policy option one: The elimination of for-profit child care

Policy option two: Ensure quality in for-profit child care through regulation

Conclusion

Endnotes
