

Child care by design ^[1]

Video and resource guide produced by the Childcare Resource and Research Unit

14 Jun 1995

Length: 24min 28sec

Child care by design ^[2] from CRRU ^[3] on Vimeo ^[4].

The objective of this video and accompanying resource guide is to assist design and child care professionals who are building a new child care centre or renovating an existing one. Child care by design presents an overview of some important design principles that influence the effectiveness of any child care centre. The principles are based on the conviction that the most important attribute of any design solution should be how positively it contributes to children's development and well-being.
