The Childcare Resource and Research Unit has periodically assembled Canadian data to produce a national snapshot of early childhood care and education. The seventh edition of *Early childhood education and care in Canada* presents 2005 and 2006 data. These data - together with data compiled for earlier editions - 1992, 1995, 1998, 2001 and 2004 reveal trends in ECEC over a decade and a half. Earlier versions of *ECEC in Canada* ^[2] are also available for download.

Early Childhood Education and Care in Canada 2006 provides cross-Canada data and information on regulated child care and kindergarten by province/territory, maternity and parental leave together with relevant demographic information. Provincial/territorial profiles on regulated child care include: varieties of ECEC services; number of spaces; standards and regulations; service monitoring and enforcement; funding; history; and recent developments. "The Big Picture" section presents cross-Canada table compilations of material topic-by-topic. "The Long View" presents longitudinal cross-Canada tables of information on child care since the early 1990s. "Looking Beyond Our Borders" is a new section added in this edition; it uses international data and information to put Canada's ECEC in international context. The report also includes a history of Canadian ECEC, an examination of the current state of ECEC, federal ECEC programs including federal transfer payments to provinces/territories, Aboriginal ECEC, further readings and key websites.
