

What is the Online Documents Catalogue? ^[1]

CRRU's Online Documents Catalogue contains excerpts and links to thousands of resources relevant to ECEC and related research, policy and practice in Canada and internationally. Use the **search form** ^[2], or browse the list of documents:

- **Research, policy & practice** ^[3] materials include: scholarly research, policy studies and briefs, government and NGO reports, video and audio.
- **Child care in the news** ^[4] is an archive of news articles about ECEC in Canada and abroad.
- **Online video & audio** ^[5] is an archive of online video and audio resources related to ECEC policy and practice in Canada and internationally.

Links to the full-text of materials are provided where publicly available; where access is restricted links are provided to abstracts, as well as purchase and subscription options.

The Online Document Catalogue grows continuously, as new materials are added to the database each week. These are usually featured on the homepage as whats new online this week and child care in the news.

For more information **contact us** ^[6].
