## Description:

Administrators working in child care often lack time and capacity to effectively manage their human resources. The CCHRSC's HR Toolkit is an online resource that contains a wealth of HR information, best practices, tools, policies, procedures and templates that can be downloaded and tailored to meet the individual requirements of administrators working in a variety of ECEC settings.

You can browse the HR Toolkit by using the search box, clicking on HR-specific titles on the left-hand side of the page, or by clicking the boxes on the right that contain specific information that may be of interest to ECEC administrators, early childhood educators, or board members of child care organizations.
