EXCERPTS:

It can be difficult for parents to find someone to look after their children while there're at work, let alone someone they trust to provide a safe space to care for their kids.

In light of the recent death of a toddler in an unlicensed daycare in Ontario, many people are calling for more licensed childcare facilities that would be regulated and inspected by the government. According to the $Canadian \ Child \ Care \ Federation, licensed \ daycare \ spots \ are \ available \ for \ about \ 20 \ per \ cent \ of \ Canadian \ children. \ In \ Saskatchewan, there \ are \ 10,752 \ licensed \ daycare \ spaces.$

Have there been any challenges in finding child care for your kids? Do you think there needs to be more regulation for unlicensed dayhomes? Should more licensed daycare spaces be created? How do you ensure the safety for the properties of the pof children in child care? How hard has it been for you to find daycare space for your kids?
