

Alberta Early Years Conference 2014 ^[1]

6 Oct 2014 (All day) to 7 Oct 2014 (All day)

Region: Alberta ^[2]

Details

The Alberta Early Years Conference is a biennial event that focuses on new understandings and approaches to early child development and the advancement of early education practices and policies. The latest ideas are presented in support of early child development in the areas of identification, intervention, program development, policy research, personal experiences, and case study research.

Our conference participants include practitioners, advocates, parents, administrators, researchers, and policy makers from all areas of western Canada. The majority of our attendees are from Alberta but the other western provinces, as well as the Northwest Territories, are also well represented.
