Description:

On April 29, 2005 the governments of Canada and Manitoba struck an historic Agreement-in-Principle on early learning and child care. This was followed by a similar agreement between the federal government and the province of Saskatchewan. These agreements are the beginning of what is hoped to be a series of strong bilateral agreements between the federal government and the provinces/territories.

These historic agreements build on a meeting of the Federal-Provincial-Territorial Ministers Responsible for Social Services in November 2004 and a subsequent meeting in February 2005. They (with the exception of Quebec) agreed to shared principles to guide the development of a new national system of early learning and child care.

This ISSUE file collects reports, press releases, news articles and other pertinent documents related to these major Canadian policy developments.
