start with play ^[2]

Description:

This website is aimed at parents but is useful for anyone interacting with young children

Your child's early years are the most precious and the most important. At this age, children learn about the world around them, and develop skills that will help them to grow and thrive. Early Childhood Educators of PEI are the certified professionals who create optimum learning experiences for your child by providing the environment and support to help your child learn for life. And, it all starts with play!

Early Childhood Educators develop trusting relationships with children and engage with them in playful experiences. They model how to investigate, create, and learn about the world. They teach children how to take safe risks and develop confidence in themselves.

Use this website as a resource to discover how your child learns through play.
