

Videos and multimedia

These multimedia resources can be used as excellent teaching tools, each video is from a different country/region to offer a variety of approaches and practices that exhibit the significance of nature exploration in play for young children.

Available online

Exploring Green Education ^[1] - Abbotsford, Melbourne Australia (video 3:14)

Visions Episode 96, March 2011

At the kindergarten of the Melbourne Graduate School of Education, teachers and students explore the idea of a sustainable world, and educators are inspired by an awareness that education for sustainability couldn't occur at a more crucial time of life.

Environmental education at the Cloud Forest School ^[2] - Costa Rica (video 7:32)

Youtube, October 2008

Within the context of a thorough, well-rounded, bilingual education, the school focuses on environmental issues in a hands-on environment.

Neroche Forest School ^[3] - Blackdown Hills, UK (video 6:38)

YouTube, June, 2009

Forest School introduces young people to a new learning style in the forest helping to maximise the emotional, social and developmental benefits of education. Practitioners use learning and teaching strategies which raise self-esteem, develop confidence, independence, and language and communication skills in a natural environment.

In focus: Forest kindergarten ^[4] - Central Scotland (video 5:42)

South Lanarkshire TV & Forestry Commission Scotland, August 2010

Outdoor Preschool (trailer) ^[5] - Norway (video 1:59)

Journeyman Pictures, YouTube July, 2009

Outdoor nurseries are trying to counteract concerns that childhood has become overprotected and believe external education makes children more creative and independent
