

Starting Strong (2001)

Starting Strong is the comparative report on the findings from the first three years work of the Thematic Review of Early Childhood Education and Care carried out by the OECD. It includes information and data about ECEC in the 12 countries that took part in the Review's first round and the eight "policy lessons" likely to promote equitable access to quality ECEC that were identified in this phase of the work.

Starting Strong observed that

Early childhood education and care has experienced a surge of policy attention in OECD countries over the past decade. Policy makers have recognized that equitable access to quality early childhood education and care can strengthen the foundations of lifelong learning for all children and support the broad educational and social needs of families. There is a need to strengthen knowledge of the range of approaches adopted by different countries, along with the successes and challenges encountered.

Print copies and full PDF of *Starting Strong* (2001) are available for purchase only from the OECD Bookshop.
